

Yelm Middle School

Yelm Community Schools – Design Update

June 25, 2019

YMS Programming/Educational Specifications

Ed Specs are the guiding standards used by educators and design professionals to describe an educational program for a project

- Identify spatial sizes, quantities, spatial relationships, and other design or programming elements that impact learning and teaching

Ed Specs provide the framework for proposed program and spaces while leaving the architect ample flexibility for design options – defining the expectations among project stakeholders without limiting creativity.

YMS Programming/Educational Specifications

Educational Specifications Process

- Leadership Team – meet weekly
- Focus groups – specific program
 - Art, CTE, Music, Kitchen, Gym/Athletics, and more
- Advisory Team – review
- Capital Facility Advisory Committee
- Outreach to YMS and SWES communities – sharing both conceptual YMS and SWES information at SWES field day and YMS award event
