Yelm Community Schools

Family Access Information

The Administration and staff at Yelm Community Schools recognize that many parents would like to play a greater role in their child’s education. To make it easier for you to get involved, we are providing you with the ability to view student information anytime, day or night.

The software that makes this possible is our student information system, known as Skyward PAC Family Access. Family Access is available through the website found at http://family.yelm.wa-k12.net. Every web page on this site has a link to Family Access at the top of the page.

To set up your account, please submit a request for a user ID and password by sending an email to: family_access@ycs.wednet.edu. Please include the name of the school your child attends in the subject line of your email. Your user ID and password will be returned to the email address you are using to submit the request. If you prefer to have us respond to a different email address, other than the one you are using to submit the request, please indicate that in your email. If your email gets rejected by our security system, please contact our support desk at (360) 458-6232 with your request, and inform them that you need to have your email address white listed. Please be aware that requests made during high volume times, such as at the beginning of the school year, will take longer to process. (Requests made in early September should be processed by mid October.)

If you forget your password, go to the login page to recover account information (see picture below). This will email your password to your personal email account. If your email address has changed since an account was issued, we encourage you to manage those changes within the application.
